The long road to standardization in autoimmunity: increasing skills for healthcare workers under European policies

Potenza, September 25th, 2024

The current symposium entitled 'The long road to standardization in autoimmunity: increasing skills for healthcare workers under European policies', organized by San Carlo Hospital in cooperation with San Giovanni di Dio Hospital, includes several topics with special focus on the standardization/harmonization issue in autoimmune diagnostics.

The goal of the symposium is to provide an opportunity to update participants on latest scientific knowledge in the field of the diagnosis of rare autoimmune diseases, as well as to facilitate networking with members of the clinical and scientific community worldwide.

P R O G R A M

10:00 Registration of participants

10:30 Welcome and agenda

Welcome by Giuseppe Spera, General Director of AOR San Carlo

Welcome by Vito Pafundi, Director of Clinical Laboratory of AOR San Carlo

Welcome by Giuseppe Terrazzano, Representative of Università degli studi della Basilicata

Welcome by Angela Pia Bellettieri, Director of Public Health

Welcome by the Representative of Health Department, Basilicata Region

Welcome by the Representative of 'Centro di Coordinamento Malattie Rare' of Basilicata

Session I: The long road of autoimmunity standardization

Co-chairs: Mariangela Manfredi, Danilo Villalta, Salvatore D'Angelo

11:00 The EASI perspective - Jan Damoiseaux

11:30 The UK NEQAS perspective - Dina Patel

12:00 The ICAP perspective - Maria Infantino

12:30 The autoimmunologist perspective - Teresa Carbone

13:00 Discussion

13:30 Lunch break
